EVERY TUESDAY AND FRIDAY.

BUSINESS MEN WANT STREETS OILED

WINDS OF THE PAST WEEK HAVE
CHOKED UP EVERYBODY—
SHOULD BE DONE.

Active agitation is being started by a number of progressive business men of Stanford to have the main business and residence streets of the city oiled this spring. The heavy winds of the past week or so, have kept dust flying in all directions, and stores and homes have been kept in a fearful condition.

It is figured that entire city can be oiled at a low cost, and the City Council will be asked to take up the matter, and if nothing can be done it by, a private subscription may be raised.

The only objection raised to oiling the streets is that for a short time after the oil has been spread, it clings to the feet of pedestrians, and has a tendency to soil the hems of women's skirts. Such annoyance lasts but a few days, however, when the oil works into the roadway.

WOMEN CLUB INDORSES OILING

The Woman's Improvement Club had a call meeting on Wednesday afternoon for the purpose of electing officers for the following year and at tending to other important business. The following officers were chosen: President—Mrs. J. J. Dickey, Vice-President—Mrs. J. G. Carpenter, Secretary—Mrs. S. M. Stauley, Treasurer—Miss Kate Alcorn.

This club has done good work in the past year and is planning to do still more in the future, the past year being the first and it taking quite a while to get well organized.

The street oiling proposition was discussed and it is believed will be carried out successfully.

April 21st and 22nd have set aside for spring cleaning days and these two days will be devoted to cleaning and beautifying the city. Wagons will be furnished to carry off the rubbish that everybody in town may clean their premises.

Henry Thomas

WINE FOR REPRESENTATIVE OVER IN CASEY COUNTY.

Casey and Russell will be well represented in the lower house of the next general assembly. In the republican primary held Saturday Henry Thomas, editor of the Casey County News, won by 140 majority and as the district is overwhelmingly republican he will be elected, and will make the best representative who could have been selected except some democrat. W. T. Brown won a renomination for sheriff by 374 votes.

One of the worst disasters around New York since the burning of the steamer General Slocum was a fire Saturday afternoon in a ten-story building at Washington Place and Greene street, in which over 140 persons, mostly young girls and women, lost their lives. The victims were employees of the Triangle Waist Co. Most of them leaped to death from the eighth, ninth and tenth stories of the building. Many were suffocated while at work at the machines, while others were crushed to death from leaping down an elevator shaft.

Mrs. Robert Gentry and three small children were burned death Saturday night in a fire which destroyed their home at Livingston. Robert Gentry, husband and father of the victims, was probably fatally burned in a desperate, but futile effort to save them. Gentry is employed by the Louisville & Nashville railroad, and has been in charge of the Livingston coal bins. He came to Livingston about four years ago from Marshall, N. C.

MRS. MARY YAGER DIES SUDDENLY

WELL-KNOWN AND BELOVED
WOMAN SUCCUMBS TO
HEART TROUBLE.

Unexpectedly in the early morning hours last Friday, March 24th, there passed peacefully away unto the other life and soul of Mary McKinley Yager, widow of the late William Yager, long a sufferer from heart trouble. This young woman was fully prepared for and waiting the great change into the more perfect life beyond and she stepped over the border so quietly and peacefully that it seems to all a translation.

Mrs. Yager was born in 1870, one of three children in the family of Nathan McKinley, Sr. and Bettie Cobb a brother, Nathan and a sister Mrs. Lula Bright, surviving. When quite a small child her father died leaving her to the care of her mother this flock of little ones. Early in life she became a Christian and while in later years she could not because of ill health, take an active interest in church work, she was always true to the Master's service. In December 1896 she became the wife of William Yager and of this union there were born two sons William and Huston, left to the care of the faithful grandparents and other relatives.

The mortal remains of Mrs. Yager were laid to rest in Buffalo cemetery Sunday morning, services being conducted by her pastor Rev. D. M. Walker. A large concourse of friends and loved ones gathered to pay the last tribute to this good woman, taken so suddenly from their midst.

May Get Garden Seed

A number of prominent Mercer county citizens came here, in automobile Saturday to tell Congressman Harvey Helm how much Harrodsburg desires a government building. Congressman Helm promised to do all he can for them. They made the trip over in automobiles. In the crowd were Messrs. Lafon Riker, Glover Kyle, J. Brack Bonta, C. M. Dedman, Dr. W. P. Harvey, Hon. C. A. Hardie, L. D. Brewer, Mayord L. Curry, Jas. L. Isenberg, Lee Smock, Jno. G. Paul, Jas. P. Spilman, T. Sanders Orr, Frank L. Curry, Ex-Senator Stephenson, Col. E. H. Galtier, George W. Edwards, and Col. Geo. Bohon.

House Burns Down

COLORED FAMILY LOSE THEIR
ALL BY FIRE

The small frame house of Anderson Hocker, colored caught fire from a defective flue Saturday morning and was completely destroyed. The fact that the house was near the railroad and a considerable distance from other houses in Meckesville, was all that saved, the colored settlement from being wiped out, as the water pressure was totally inadequate at the scene of the fire to do any good. The power house engine was pumping at 125 pounds pressure, but from defective hose, mains or some cause, the water would not spout, 15 feet from the nozzle. A subscription was raised to assist the Hockers, who lost everything they had in the fire.

LOAFERS MUST GET TO WORK, SAYS JURY

CHARLEY BAUGHMAN GIVEN SIX-
TY DAYS FOR VAGRANCY
AND OTHER CASES
PENDING.

Strict enforcement of the vagrancy law in Kentucky in Stanford is to be had in the future, and idle negroes who have been loafing about the streets of the city will have to get to work, the first trial to come up in the Police Court in months on such a charge can be taken as an indication of public sentiment. Charley Baughman, a yellow negro, was charged with being a vagrant under a warrant sworn out by Rev. D. M. Walker, pastor of the Christian church. Among the witnesses against Baughman were some of the most prominent citizens of the community and at the conclusion of the trial, the jury found him guilty and fixed his punishment at confinement in the county jail for 60 days, this being the second conviction on this offense had against this negro, though he was convicted another time for carrying a deadly weapon, concealed.

Baughman was defended by Attorney J. S. Owsley, Jr., and it is understood that he will take an appeal from the judgment. Attorney K. S. Alcorn conducted a vigorous prosecution. Among the witnesses who testified to seeing Baughman habitually loafing about the streets of the city and doing no work were H. J. McRoberts, J. C. McClary, Chief of Police B. D. Carter, Lee Hill, and Rev. D. M. Walker, the latter having heard Baughman remark after an altercation with Mr. Mack Bruce, that "if he fooled with me they'll have a bigger fire than that in town." Several others also heard the negro make this remark at the time J. H. Baughman & Co.'s big warehouse burned.

Baughman admitted himself that he had done no work since working on the court house about 11 months ago, but said he always had money and lived with his stepfather and mother and had to pay no board, rent, and that he sold pigs, etc., and saved his money to buy the good clothes which he wears. Attorney Alcorn sought to introduce evidence showing the rumors connecting Baughman with being a "bootlegger" and blind tiger operator but the court ruled such evidence out as being irrelevant in this case.

There was a large crowd in the court room to hear the trial and much satisfaction was expressed at the verdict. It is understood that other cases against negroes who are constantly seen on the streets, doing nothing and wearing good clothes will be pressed, under the vagrancy law. It is a matter of interest that the present statute concerning this misdemeanor was drafted for introduction in the legislature by the late Judge M. C. Stauley. He wrote a whipping post clause into the law, which was cut out by the legislative committee. Many now think that it would be a mighty good addition to the law, however, and it is probable that an amendment to secure it will be introduced at the coming session of the General Assembly.

Fields Salter, Jr., was tried on a charge of vagrancy the same afternoon but it being shown that he worked until he began having hemorrhages, when he was compelled to quit hard manual labor, he was acquitted.

Receivership

FOR EUREKA PORTRAIT COM-
PANY GOES UP THE SPOUT.

The Eureka Portrait Company, which has been engaged in business here for the past few years, has recently gone into the hands of a receiver, and M. A. Johnson, who was in charge as general manager, has taken a traveling position on the road. For a while the company is said to have done well, but for some reason it fell behind lately and it was deemed best to wind up the business. It is said that the company will hardly pay 40 cents of the \$1. Welch Rochester was named as receiver.

A number of local men held the controlling interest here, among them being J. S. Rice, K. S. Alcorn, T. H. Shanks, M. A. Johnson B. R. Fugate, of London, Ky., and S. D. Kessner, of Abingdon, Va.

NO NEGRO FIREMEN NORTH OF OAKDALE

AGREED TO BY Q. & C., OFFICIALS
AND FIREMEN'S STRIKE IS
DECLARED OFF

The strike of white firemen on the Q. & C. route was declared off Saturday night after an agreement had been signed by representatives of the Brotherhood of Locomotive Firemen and Enginemen and Horace Baker, general manager of the railroad.

The agreement is to all appearance a compromise, both sides yielding several points in the dispute. In short the agreement holds that employees who went out on a strike shall be re-instated, the railroad company, however, reserving the right to refuse to employ any fireman who has committed any act of violence during the strike. Negro firemen cannot be employed north of Oakdale, Tennessee. The percentage of negroes employed on January 1st, 1911 shall not be exceeded hereafter and negro firemen cannot be assigned to more than one-half of the passenger and preferred freight runs.

In case any question arises over the new agreement either side may appeal to Judge Martin A. Knapp, of Washington, and his decision in the matter shall be final.

The railroad company gives it out that during the strike three have been killed, six wounded and property destroyed to the amount of several hundred dollars. This, however, is believed to be underestimated. Men who have watched affairs say that more than a dozen have been killed, at least six killed. The agreement between the company and officials seems to meet the approval of all the firemen.

Sheriff McCarty was called to Kings Mountain Saturday upon report from there that a railroad engineer and a detective had been shot.

More Concrete Walks

ORDERED DOWN IN STANFORD
BY CITY FATHERS.

The City Council is determined to continue the good work of having concrete pavements laid all over town. At an adjourned meeting Thursday night the City Fathers ordered a number of new stretches of concrete sidewalk laid to replace old, worn out brick paving, and it is understood that the good work will be continued this spring and summer. Paving ordered laid was from Mrs. Mattie Kirby's corner on the north side of Main to Whitley avenue, from W. K. Warner's corner, to Cut Off street, and all brick paving on East Main street which has not been ordered replaced with concrete must be replaced at once, or concrete will be put down in its place. The council purchased a quantity of new fire hose and ordered the city ordinances compiled and printed in convenient pamphlet form.

Rolls of Rice.

The most important of the agricultural industries of India is the cultivation of rice, of which a number of varieties are produced, differing in size, shape and color of grain as well as in suitability for culinary purposes. More than 10,000,000 acres are annually put under rice in India. One of the varieties known in India is that it is two stalked, as is the rice of the diary variety. This grain is a good one for boiling it is a hard one and after being thus prepared it is left in the tubs to be eaten as a specialty by travelers.

Trial 2:24 Trotting. Dark Bay Stallion, 16 hands; foaled August 1901, bred at Village Farm, East Aurora N. Y. First dam Naughty Girl by Rex Americus 23200, 4-year-old record 2:11 1-4, sire of Battleton, 4-yr. record 2:07 3-4. American Belle 3-yr. record 2:12 1-4 and 18 others in 2:30 list; a son of Onward 1411, record 2:25 1-4, sire of Onward Silver 2:05 1-4 and 170 others in the 2:30 list. Onward was sired by George Wilkes 519.

Second dam Duerma, sired by Mambrino King 1275, sire of 75 including Lady of the Manor 2:04 1-4, Lord Derby 2:05 3-4, Heir at Law 2:05 3-4 6 others in 2:10.

3rd dam Dotlet, by Nutwood 600, the sire of 14 in the list.

4th dam, Topaz by Strathmore, 408, sire 90 in the list.

5th dam, Millard, by Albion, 6th dam Ned by Edwin Forest, 7th dam Lady Turner by Mambrino Chief 11.

The Warfield was bred to only 15 mares. He has 12 foals all up-headed plenty of style, size and substance and plenty of speed. The Warfield is a representative stallion in all the term implies. To say that he has size, substance and speed only in part emphasize the qualities combined in this son of Dare Devil. He has them and they are such symmetrical character as to make him a stallion among many. His head and neck, body, feet and legs are perfect and when seen in connection with his faultless gait and great beauty are especially impressive. You should see this horse before breeding. You will say you never looked at a better one.

The Warfield is the only stallion that has 7 dams in the great brood mare list. He has two Mambrino King crosses, two Mambrino Patchen, two Mambrino Chief, one Chinese one Onward, one George Wilkes, one Electioneer, one Nutwood, one Strathmore, more trotting crosses than any stallion alive.

The Warfield is by Dare Devil, 2458 record 2:09. He by Mambrino King 1275 he by Mambrino Patchen, 58 he by Mambrino Chief 11. Dam Mercedes, by Chimes 5348, by Electioneer 125.

Dare Devil is a great winner. He won the championship at National Horse Show in 1898, class 4; first National Horse Show 1899, class 2; first National Horse Show 1899, class 10; championship National Horse Show 1900, class 2; first National Horse Show 1900, class 3; first National Horse Show 1902, class 10; first Boston Horse Show 1902, class 3; reserve Boston Horse Show 1903, class 2; second Boston Horse Show 1903, class 1; third Boston Horse Show 1903, class 7. He sired The Beau Ideal 2:15 1-2, (sire of Princess Helen 2:05 3-4) Devil's Daughter 2:19 3-4, Sarah Hamlin 2:19 1-4, Trifler 2:22 1-4, Dare Devil, Jr., 2:28 1-2. MANAGEMENT OF DAIRY BULL

Practice of Allowing Animal to Run With Herd Has Serious Drawbacks—One Method.

On the majority of farms it is customary to allow the bull to run with the herd. This practice is open to serious objections. In the first place, a bull running with the herd is unsafe from the standpoint of human life. No bull is absolutely safe, he be ever so gentle. In fact, it is the "gentle" bull that usually kills, because fewer precautions are taken with animals of this kind than with those that show an ugly disposition. writes John Michels, in Homestead. Then there is the annoyance and worry, especially for children and women, to have a bull run about. Hired men also complain about getting up the cows when there is a bull with them and who knows how many have quit their job because of the bull.

A very vital objection to running the bull with the cows is that it impairs the usefulness of the bull, due to excessive service. One service is sufficient and this can be had only when the bull is kept away from the cows. Again, it is difficult to tell when cows have conceived, which makes it impossible to know when the cows are due to calve, a matter of no small importance.

A further serious objection to running a bull with the herd is that many a valuable bull is disposed of to the butcher because he has become unmanageable with the herd. Most bulls are sold to the butcher before they have had a chance to demonstrate their value.

The question now arises, if the bull is not to run with the herd, how is he to be managed? There are several ways of doing this, but I wish to give here only one of them, one which I have used for a number of years and

found satisfactory in all respects. This consists of an inclosure with stable and breeding pen as shown in the accompanying illustration. The bull run is 50 feet square, including the stable, and is inclosed by a solid board fence 6 1/2 feet high. The boards are nailed onto 4 by 4's from the inside, which insures great stability. The breeding pen is also made solid by using one-inch boards and is 6 1/2 feet high. The cow is bred in this pen by tying her to the front end and then letting in the bull by opening the stable door. The latter closes the pen when opened as shown in the cut. The bull is fed through an opening in the stable. Water is supplied in the same way.

A board walk, about one foot wide and 2 1/2 feet high, is placed along the outside of the breeding pen. The attendant stands on this walk and drives the bull back into the stable after the cow has been served. For convenience of taking the bull out of the inclosure, a door is put into the front of the right-hand end of the breeding pen.

While a bull can be managed in a pen such as is here described without coming in contact with him, it is best to lead him out occasionally with a stick snapped into the ring of his nose. It is always well to keep a bull accustomed to being led with a stick.

Garrard Chief. 1835

Bay stallion 15-3 hands, foaled summer 1902, said by good judges to be one of the finest stallions living. He is a perfect image of his great sire Chester Dare 10. Mr. J. C. Graves who raised and showed Chester Dare 10 says it is almost impossible for two horses to be more alike than Garrard Chief 1835 and Chester Dare 10. Col. W. A. Barriger of Shelbyville, Ky., has judged this horse at the Texas State Fair several times says he is as fine a horse as he ever saw. Garrard Chief won the championship of the South West at Dallas in 1908, 1909, 1910 and during that time his colts won more than any other herd shown there in saddle classes. At Fort Worth Horse Show in March 1910 Garrard Chief won first in breeding class for saddle stallions and age over 15 good ones, he also won at same place first for five-gaited saddle stallion mare or gelding. He will make the season of 1911 four miles from Stanford on Hustonville pike at \$25 to insure living colt. Mares grazed \$2.50 per month. Lesson I.—Second Quarter, For April 2, 1911.

THE INTERNATIONAL SERIES.

Text of the Lesson, 11 Kings v. 1-14. Memory Verses, 13, 14—Golden Text. Isa. xlv. 22—Commentary Prepared by Rev. D. M. Stearns.

It is a most interesting and profitable study to search out in the Old Testament all the people and the events which the Lord Jesus mentioned in His teaching and to remember that Jesus of the New Testament is none other than the Lord God of the prophets, whose goings forth have been from of old, from the days of eternity (Mic. v. 2, margin). In Luke iv. 27, He mentions both Naaman and Elisha, and of course that includes the little maid of Israel and all the other people and incidents of the story.

In chapter iv. 8, we read of a great woman, and now it is a great man and honorable, a deliverer and mighty man of valor, but a leper. He was a great man in the eyes of his fellows, but had he lived in Israel he would have had to live without the camp.

Leprosy is a wonderful type of sin, and it matters not how great a man may be in other men's eyes, if he is an unsaved sinner he is a child of wrath, dead in sins, without Christ and without God (Eph. ii. 1, 3, 12), and those who die in that condition are forever shut out (Heb. xxi. 8, 27). In as seemingly strange ways as the Lord brought healing to Naaman He still wins sinners to Himself. He may use a captive maid, humble servants, waters of Jordan, etc., but He is always seeking to save the lost, not willing that any should perish (1 Pet. iii. 9).

The little captive maid stolen away from her home might have so hated her captors as to wish them evil and be glad that Naaman was a leper, but she evidently had the spirit of Him who taught to love our enemies and to be subject even to perverse people (Matt. v. 44; 1 Pet. ii. 18). So she pitied Naaman and told of the prophet in Samaria, of whom she knew or had heard many wonderful things. From the slowness of believers to tell of the Lord Jesus and His wonderful redemption the world has a right to conclude that they have nothing wonderful to tell.

The result of the little maid's testimony was that the king of Syria sent Naaman to the king of Israel with a letter and a lot of silver and gold and raiment, asking for the king's health for his servant. There was a double mistake in sending to the king instead of the prophet and in supposing that money could purchase heaven's gifts. The maid had spoken of the prophet in Samaria, not the king, and a true prophet is a spokesman for God. But royalty can only deal with royalty and, as a rule, has no use for poor men even if they are prophets. Such pride must be laid low before God can help such people.

The king of Syria thought that the king of Israel was seeking a quarrel with him in making such a request, and he rent his clothes. Elisha, hearing of it, said to the king, "Let him come now to me, and he shall know that there is a prophet in Israel." So Naaman came in all his pomp and pride to the door of the house of Elisha, thinking that the prophet would make a display of his power and in some striking way give him health. When the prophet did not deign even to come to the door, but sent a messenger, saying, "Go and wash in Jordan seven times, and thy flesh shall come again to thee, and thou shalt be clean," Naaman was so angry that he turned and went away in a rage.

When we remember that even Abraham's thoughts brought him trouble (Gen. xx. 11) and Mary's supposing gave her three days of sorrow (Luke ii. 44-46) we do not wonder so much at the result of Naaman's thoughts. Simple faith in God and prompt obedience is the only safe way. Servants sometimes have more sense than their masters, and so it proved in this case, for, as they reasoned with Naaman that he would gladly have done some great thing, then why not do this simple thing? He went and did as Elisha had said, and his flesh became as the flesh of a little child, and he was clean.

There was no special value or efficacy in the waters of Jordan, but it was to Naaman a lesson in humility and obedience and submission to the true God. In the matter of salvation for the sinner there is only one way, one name, one sacrifice, one precious blood, and he who disdains it cannot be saved. Naaman, being healed, returned to Elisha with a good confession, "Behold, now I know that there is no God in all the earth but in Israel" (15), and he would fain have rewarded the prophet. How grand is the dignity of the soul that can turn down earth's silver and gold and say to such as Naaman, "As the Lord liveth before whom I stand I will receive none." Compare Gen. xiv. 22-23; Dan. v. 17. See also the rich young ruler who was told by our Lord to give all that he had to the poor (Luke xviii. 22) and then follow Jesus, thus revealing to him his own heart, and that his possessions were his end, and that he was breaking the first commandment. I expect that the rich ruler was troubled by our Lord's words to the rich ruler, and was a certain that Gehazi was right. The Elisha's rejection of Naaman's gift, Consider the result of his disobedience (verse 27) and remember the words of our Lord in Luke xii. 34: "Take heed and beware of covetousness, for a man's life consisteth not in the abundance of the things which he possesseth."

DEMOCRATIC TICKET.

For Circuit Judge.

HON. CHARLES A. HARDIN,
of Mercer County

Hubert Vreeland says we are actuated by spleen because we said it served him right to have the republicans, with whom he was dealing in an effort to take Newman's state fair secretaryship away from him, "double-cross" him. And he was never more mistaken in his life. Hubert's an awful nice fellow in every way, and we thought it too bad that a man who has attained the prominence which he has in democratic ranks—having served with distinction as State Commissioner, of Agriculture,—should be heralded as having been in league with the present republican officials, to take away a paltry office from a brother democrat. And then to have his republican allies hand him a large fat lemon, after he had thus compromised his democracy with them. Not spleen Hubert; you might call it ultra democracy—something you rarely find in politicians who come out of Louisville.

The Courier Journal continues to thunder for a democratic platform convention before the State primary on July 1. Don't pay too much attention to it, however, for the Courier Journal very probably won't play unless it is allowed to write the platform and what country democrat is willing to stand on certain planks it keeps in its lumber yard? And again, what assurance have we country boys that the Courier-Journal will support the nominees after they are made? Better look a leetle out.

Col. Walton in the Lexington Herald, says we "handed it" to Hubert Vreeland insaying that it served him right to have the republicans double-cross him after he had dealt with them in an effort to turn a good democrat out of the state fair secretaryship. Well now tell us Colonel don't you think that looking at the matter from a Simon-pure democratic standpoint, it really did serve him right?

Ed Leigh heads a boost for his and Henry Hines, Candidate for governor in the Bowling Green Messenger; "Democracy affire for Judge Reed." Yes, and Democracy in the shape of friends of the grand old warhorse of Madison, is going to hand the same Judge Reed a "hot one" about the first of July.

By all means let's oil the streets this summer. There is no effective way to lay the dust, but this and after the first two weeks' trial, everyone will be pleased.

With plans on foot for new courthouse, Harrodsburg now wants a federal building. Stanford has wanted one for some time, but that's as far as it's ever gotten.

LARGELY PHONETIC.

The general manager had dictated a letter to the new stenographer—a most stately and straightforward blonde—and this same letter dealt largely with the "physical" condition of the line.

The general manager was marked up to play a foursome out at the country club that afternoon and the long continued toll in the click-click of the machine was getting on his nerves.

So he sauntered over to the stately blonde's desk, where he found her poring earnestly over a pocket dictionary.

"Can I assist you, Miss Mayzie?" "Yes; sir, if you will be so kind that word 'physical', I've been over the A's and the B's three times, and yet I can't seem to locate it."

His Pool Puddle.

"Are you following the race?" "Yes, and if I ever catch up to them I'll quit."

THE RECALL.

Senator Bailey's resignation (and the withdrawal of the resignation) has given to the initiative, referendum and recall more advertisement than the direct legislation league could have purchased with a million dollars, and advertisement is all these reforms need. As soon as the people understand them they will adopt them—shocking as this may seem to those who think that these reforms will destroy the institutions bequeathed by our fathers. As the recall is the reform least understood, and therefore most violently attacked, let us examine this method of dealing with officials.

There may be differences of opinion as to how many signers should be required in order to invoke the recall, but that is merely a matter of detail. When the right of recall is admitted the percentage required to call an election can be fixed by agreement among those favoring the recall—and it will probably be a compromise between extreme views as to notice of election, time required for consideration and means used to inform the public. These also, are matters of detail and do not affect the right itself. Such safeguards will be thrown around the use of the recall as experience may prove necessary. But as to the right of recall—two questions are raised:

First—have the voters a right to terminate the contract entered into, when the candidate accepted the office? This question cannot arise, if the candidate is elected after the adoption of the recall, because he will take the office subject to the right of the people to recall. But the question could not give much trouble any way, because provisions could be made, if necessary, for the salary to be paid for the unexpired term. If an official demonstrates his unfitness for an office the people can much better afford to pay him while not serving than to allow him to serve even without compensation.

The second question—the only real question in fact—is whether the recall so robs the official of independence as to injure the public service. This question admits of but one answer. Why should a public official be independent of the wishes of his constituents? It is an aristocratic—not a democratic—conception of representative government that contemplates that the representative will be independent of the wishes of his constituents. The democratic theory is that the people will think for themselves and select representatives to give expression to their thoughts. The moral and intellectual standard of the representative will not be lowered by an increased watchfulness on the part of the public. Banks have not lost anything in standing and character by the fact that they are now examined and may be closed without a moment's notice. On the contrary, the banking level has been raised and it will be raised still more when the law requires the bank to give absolute security to depositors, so officials will be better when the betrayal of trust—the embezzlement of power—is dealt with as a crime.

But if independence is the thing desired, is that not already menaced by frequent elections? If independence is necessary, how can we secure it except by life tenure? How can a congressman act independently if eleven months after the first regular sessions convenes his constituents may defeat him at the polls because of some vote he has cast or some speech he has made? In state and city the situation is the same. The recall asked for would be invoked when we now have in frequent elections acts as a restraint on all officials and acts constantly. How can we condemn the proposed recall as dangerous or destructive and at the same time approve of short official terms? And does not impeachment act as a restraint on independence? The regular election is a form of impeachment; it gives the people a chance to remove at stated times by refusing re-election. The recall simply goes a step farther and permits the voters to shorten the term, when in their judgment, the official has betrayed his trust. The fact is, that opposition to the recall is a reverberation to aristocracy, plutocracy and monarchy. The objection rests upon a distrust of the capacity of the people or upon a contempt for their rights because the people have a right to self-government and the capacity for self-government, and because the people are conscious of their right and confident of their capacity, they favor the recall—and will, in time secure it."—Bryan's Commoner.

Don Varrick

This magnificently bred young stallion will make the season of 1911 at my stable near Stanford, Ky., on the Shelby City pike at \$15 to insure a living colt. Don Varrick is 15-2 hands a beautiful chestnut, short back heavy bone in fact the highest type of the trotter and perfect disposition. He is by the great Onward Silver 2:05 1-4, that won the \$5,000 Transylvania in a seven heat race in 1902 and the same year won the \$10,000 Bonner Memorial and the M. and M. all in broken heats and sold for \$21,000 and later for \$25,000. Don Varrick is bred exactly like Spanish Queen that won the \$5,000 Transylvania in 1908 making a record of 2:07 and was placed as one of the four, being one of the greatest money winners on the grand circuit in 1908.

Onward Silver, is by Onward, one of the greatest and best sons of George Wilkes Onward's dam was the dam of Director, the sire of that great family of trotters and pacers. Don Varrick's 1st dam was by Wilkes Boy, by George Wilkes a full sister to The Way 2:15 1-4 and half sister to Madeline Patchen on the dam of Rubber 2:10, Winchester 2:19 3-4, Billy Wilton 2:20, and Miss R. 2:30 2nd dam Mary by Boggs Grey Eagle the dam of The Way and Madeline Patchen.

Don Varrick's dam produced Dr. Conner, that placed a public half mile on the Lexington track at 16 months in 1:08 3-4 and sold to N. W. Hubinger of New Haven for \$1,000 she also produced Maggie Igo, that trotted a mile on the same track at 16 months old in 1:11 and sold for \$500. Don Varrick is fast game and always on the trot, very rarely ever leaves his feet. In 6 weeks handling last fall he trotted a quarter on half mile track in 34 1-2. Sec. half in 1:10 and the mile in 2:27 1-2 on the outside of track. Please note the rich inheritance of speed on both sides, not a missing link for generations. Bred to this fellow and you can't miss the four times every breeder looks for size, disposition, speed and looks. See him before booking your mare. Season money due when mares are parted with or bred to another horse. Mares kept at 10 cents per day and all car taken, will not be responsible for accidents or escapes. Don Varrick is a 2:10 trotter if he had the proper handling.

MAJOR SHELBY

(W. P. Walton in Lexington Herald.)
The death of Major Isaac Shelby at Arcadia in Lincoln county, at the age of seventy-nine removes from the sphere of action one of the most pronounced type of the Colonel Sellers variety we have ever known. He spent fortunes in the illusive chase of greater ones. Crab Orchard Springs was his holy thirty or forty year ago, and he spent thousands of dollars in making it a resort to which he hoped visitors would flock from the South and elsewhere, but in vain.

Besides building many hyndsome cottages, he put over \$100,000 in one building at the springs which would do credit to any watering place. The property passed out of his hands years ago, and it has just sold for the second time for a little more than a tenth of what had been spent on it.

Major Shelby was a fine gentleman and a popular one, but his enthusiasm over any project always ran away with quiet judgment and left him in the lurch. He was the grandson of the first Governor of Kentucky, for whom he was named, and he had a son of the same name and for years the line of Isaac Shelby was known by numbers down to the fifth. Major Shelby wore the gray with valor during the Civil war and strove with all his might afterwards.

WOMAN ESCAPES OPERATION

Was Cured by Lydia E. Pinkham's Vegetable Compound

Elwood, Ind.—"Your remedies have cured me and I have only taken six bottles of Lydia E. Pinkham's Vegetable Compound. I was sick three months and could not walk. I suffered all the time. The doctors said I could not get well without an operation, for I could hardly stand the pains in my sides, especially my right one, and down my right leg. I began to feel better when I had taken only one bottle of Compound, but kept on as I was afraid to stop too soon."—Mrs. SADIE MULLEN, 2728 N. B. St., Elwood, Ind.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion, and nervous prostration.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

SUFFERED 23 YEARS

Constant Sufferer From Chronic Catarrh Relieved by Peruna.

Mrs. J. H. Bourland, San Saba, Texas, writes:

"For twenty-three years I was a constant sufferer from chronic catarrh. I had a severe misery and burning in the top of my head. There was almost a continual dropping of mucus into my throat, which caused frequent expectoration. My entire system gradually became involved, and my condition grew worse. I had an incessant cough and frequent attacks of bilious colic, from which it seemed I could not recover. My bowels also became affected, causing alarming attacks of hemorrhages. I tried many remedies, which gave only temporary relief or no relief at all. I at last tried Peruna, and in three days I was relieved of the bowel derangement. After using five bottles I was entirely cured. I most cheerfully recommend the use of Peruna to any one similarly afflicted."

Mrs. J. H. Bourland.

The Name Quaker.

A London writer says that the name Quaker "sprang from the lips of a local Justice Shallow." This man was one Bennett of Derby. The name was a gibe at George Fox, who once declared in the justice's court that all ought to "quake" at hearing the name of God. The Society of Friends originally called themselves "Seekers" a more beautiful and also more obvious but much less picturesque term.

Retention of Heat.

In human beings the skin is the principal means of heat loss, being responsible for the loss of 87.5 per cent of the total heat lost. This is not so in some animals—the dog, for instance, whose hairy coat does not permit its skin to perspire. The dog loses heat largely by its expired air and by the radiation and evaporation of water from its tongue; thus it pants and puts out its tongue on a hot day. Obviously our clothes prevent the loss of heat, and the more effectively as they are bad conductors of heat. For this reason flannel, wool and furs are so much "warmer" than linen or cotton, materials from the vegetable kingdom and therefore not the natural clothing of animals.

WARNING TO RAILROAD MEN

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroad travel. Geo. E. Bell 629 Third St., Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroad travel left my kidneys in a terrible condition. There was a continual pain across my back and hips and my kidneys gave me such distress and the action of my bladder was frequent and most painful. I got a supply of Foley's Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley's Kidney Pills to many of my railroad friends. Shugars and Tanner."

Four Great Musicians.

Palestrina was a revolutionist in his day, but is now virtually obsolete even for the severest classicists. Gluck was as radical an innovator as Wagner, yet it is only occasionally and with difficulty that one of his works can now be briefly resuscitated. Beethoven was a madman even to many of the best musicians as late as 1865, when, as that musical veteran, Professor Haupt, himself said the "Fifth Symphony" was rehearsed in Berlin for the first time and the orchestra dashed the music from the racks, declaring it was crazy and could never be played. Now this same "Fifth Symphony" is considered a model of form, and its composer is the cherished idol of conservatives and classicists.

A Special Medicine For Kidney, All Men's.

Many elderly people have found in Foley's Kidney Remedy a quick relief and permanent benefit from kidney and bladder ailments and from annoying urinary irregularities due to advancing years. Isaac N. Regan, Farmer, Mo., says: "Foley's Kidney remedy effected a complete cure in my case and I want others to know of it. Shugars and Tanner."

Attention Poultry Raisers

Sick Fowls Don't Pay, Droopy Hens Won't Lay.

WHY LOSE YOUR FOWLS? Why take chances against disease? A few drops of Bourbon Poultry Cure in the water keeps fowls strong, vigorous and thrifty, protects them against disease and puts them in prime condition for egg-laying. It is the only remedy that can be depended upon to cure roup, Cholera and Gapes simply because it destroys the germs which cause these diseases. One 50 cent bottle makes 12 gallons of medicine. Every Poultry raiser should keep a bottle of this medicine on hand.

OUR BOOKLET ON "DISEASE OF FOWLS CAUSE, SYMPTOMS AND TREATMENT," IS FREE. ASK YOUR DRUGGIST FOR IT.

Please send me by express two quarts of Bourbon Poultry Cure. No one who is an up-to-date poultry raiser can afford to be without this valuable medicine. It does all you claim and more. I take pleasure in recommending it as the best poultry remedy I ever saw. It it working like magic in this county. My friends who are using it say they never saw anything like it. People call me over the phone and say, "My sick, what must I do?" I tell them to use Bourbon Poultry Cure, and in a few days they call me and say their birds are sound and well. I have a great many B. P. Rock chickens and 125 of the finest M. B. turkeys in the State. I use this remedy and never have a sick fowl. It gives them strength and vitality and makes their plumage bright and glossy. See my exhibit at the next state fair.—Mrs. J. D. Cox, Lawrenceburg, Ky.

NOTE.—Mrs. Cox was awarded first prize to the best gobbler at Kentucky State Fair and first prize for best hen at Blue Grass Poultry Show.

Every year I have been losing from 75 to 100 chickens from gapes, and I had about concluded not to try raising any more. I got a bottle of Bourbon Poultry Cure, and used it according to directions, only a little more freely, as mine was a case of years of infection. Now I have 200 chicks, all thrifty and growing nicely, and not a "gapey" one among them, in spite of the fact that they have free access to a big wood yard, which is a breeding place for the pests.—Mrs. Jennie B. Stevens, Lynchburg, Va.
